

6 Hours of Continuing Education for Attendant Care (ATC) Providers

AHCCCS requires that all ATC Providers complete 6 Hours of Continued Education per year. Arizona Care Providers will be utilizing a Paper Continued Education Credit Form that all ATC Providers will fill out to get their yearly credit. One form must be completed for EVERY video, documentary, book, or podcast episode completed.

For reading material, Providers earn 1 hour of credit for every 40 pages read. You may also fill out a CE Credit Form for any applicable training classes you may have attended on any given year.

Article 9 training can count towards your continued education in the renewal year, however, CPR and First Aid are not eligible for this program. Please be sure to complete a CE Credit Form once you've completed Article 9 to receive the credit towards your 6 hours.

We have assembled a list of sources that you are welcome to choose from for this Continued Education. All sources chosen must relate to your work as an ATC Provider. Sources cannot not be repeated from year to year.

Completed forms can be emailed to Fax@azcareproviders.com or they can be faxed to 623-218-1216.

Should you have any questions about this process, please contact our Phoenix Office and ask to speak to someone in regard to 6 Hours of Continued Education.
